

Celebrating Catholic Schools Week

Starting January 30 Part 1 of a 3 Part Series

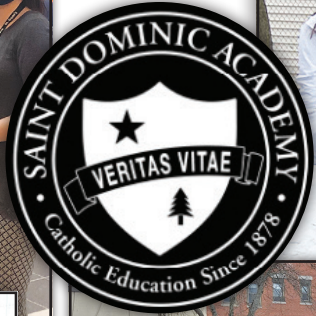

Veritas Vitae, "The Truth of Life" at Saint Dominic Academy

The annual celebration of Catholic Schools week begins on January 30th and here at Saint Dominic Academy our students and staff are preparing to celebrate the gift of a Catholic education through school activities and service to our community. At St. Dom's we celebrate the 80-year tradition of providing Lewiston-Auburn Area families with a Catholic school education. Each day our students are immersed in a faith-filled environment filled with rigorous academic learning opportunities and whole child education. Students and staff share daily morning prayers and attend weekly Mass. Spiritual development is an integral part of daily

student and staff life. Our students are invited to participate in service projects and it is intended to help for students to not only be witnesses to Catholic social teaching, but to be active participants in helping the community. We expect our students to be of service to others and we know that because of the strong faith formation they receive, they will lead with virtue and compassion and transform the organizations in which they associate. Now, perhaps even more than ever, these are the principles we seek for our children's education and for our humanity's future. Our mission is to graduate students that are generous, responsible members of

society. Most notably, our school has remained open full-time and the incredible faculty and staff of St. Dom's has made it possible to continue to teach on-site, 5 full days a week, in a very safe environment. St. Dom's has the resources and has risen to the challenge of offering full-time in-school instruction to ensure the success of all our students. With safety measures in place, St. Dom's students are staying on track with the development of their whole person. *On behalf of the faculty, staff, parents and students of St. Dom's, I thank you for your prayers and support of Catholic education.*
