

Celebrating Catholic Schools Week

Starting January 30 Part 2 of a 3 Part Series

Saint Dominic Academy's Elementary Campus: Developing Future Saints

Serving Lewiston/Auburn and over a dozen surrounding communities, Saint Dominic Academy's Elementary is a small, caring community in which the lessons of the Catholic tradition including mutual support and service to others are integrated with academic intensity. We are a faith-filled school community with smaller class sizes and Catholic values to benefit your child.

Adherence to the contemporary Catholic values of dignity, family and community, human rights and care for God's creation will

foster a social consciousness in your child and help them to understand their role in life. Our students participate in prayer services, Liturgy and service to the community. They compete in athletics programs, math competitions, penmanship competitions, Geography bees and Spelling bees.

The teachers at St. Dom's really know and care about their students. The structure, safety and support that St. Dom's maintains for its students far exceeds that of other schools. We offer a trained

and certified faculty with over 350 years of combined teaching experience. All of the teachers and staff work together with you and your child to promote academic excellence and spiritual development within the context of our Catholic Church.

The academic programs for grades Pre-K to 5 focus on preparing each student for the middle and high school years at Saint Dominic Academy. All subjects are planned and delivered to ensure success for future grade levels. Elementary subjects are

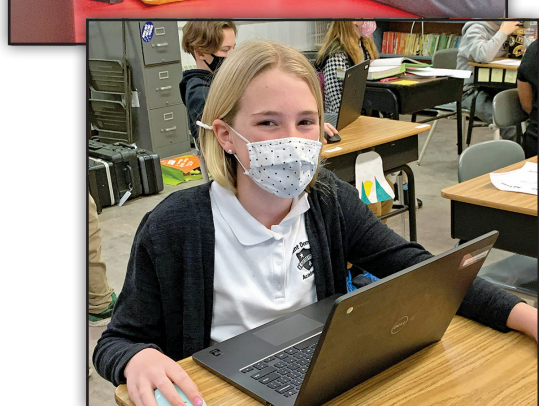

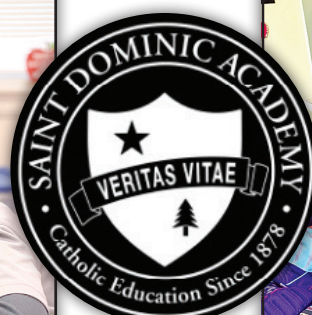

specifically designed to integrate with courses offered at the middle school level with advanced offerings in critical areas such as math and language arts.

Core courses include Math, Science, Reading, Theology, Literature & Social Studies. Students at St. Dom's also benefit from a number of special course offerings designed to enhance the many God-given talents we each possess, enriching the whole person. The following classes are an integral part of each elementary student's weekly schedule: Art,

Technology, Theology, Music and Physical Education.

Participation in athletics is an important aspect of a child's development. St. Dom's offers boys and girls co-ed soccer for grades K through 5 in the fall and co-ed basketball for grades K through 5 in the winter. Fifth-grade students have opportunities to participate in the following sports with middle school students at St. Dom's or in the local recreation program: cross country, soccer, field hockey, golf, basketball, ice hockey, baseball, softball and track.

Parents who chose St. Dom's are committed to the values and philosophy of Catholic education where spiritual development fosters mental and physical growth. Interested families may visit the school at any time or visit us online at Stdomsmaine.org. Please contact us! We welcome the chance to speak to you personally to discuss how St. Dom's will make a difference in the life of your child.
